- **22 Initial permits yet to issue**
- **7 New applications received in 2003 & 2004**
- **310 Modifications issued**
- **108 Renewal applications received**
- **17 Renewals issued**
- **28 Renewals under review**

Title V Web Links

- www.iowadnr.com/air/prof/oper/oper.html
- All Forms available in PDF and MSWord 97 format

Title V Form Revisions

- Revised Part 2 Forms -
 - Form RE-00 - reflect new CAM Form
 - Form RE-08 - New CAM Form
 - PM vs PM10
 - Form – RE-01 Table B Updated
- Revised Part 3 - Check box added for Form RE-08

Area Source MACTs

- EPA rulemaking to exempt from Title V all but secondary lead production facilities

Title V Renewals

- No extensions of submittal timeline
- Testing required by initial permit must be done before renewal submitted
- Continue to operate under terms of initial permit if timely and complete renewal application filed (application shield)

Emission Inventory Audits

- **DNR audits of EIQs**
- **Still finding many errors in submittals**
 - **Math errors, conversion errors, units of measure errors**
 - **Incorrect emission factors**
 - **Inflated and unjustified emission factors**
- **Issues resolved by audit follow-up or during application reviews**
