HISTORICAL OVERVIEW

Ever since Columbus discovered what are now the U.S. Virgin Islands during his second voyage to the New World in 1493, they have proved to be an irresistible lure for more foreign powers than any other nation. The flags of Spain, France, England, Holland, Denmark and the United States have all flown over these islands. The first successful colonization attempt commenced officially in 1666, when the Danes took possession of St. Thomas.

Soon after the Danish settlement, it became apparent that St. Thomas' future lay in her port. The tiny settlement with four taverns became known as "Tap Hus," or "Beer Hall," until 1691, when it was renamed Charlotte Amalie, in honor of the consort of King Christian V.

In 1685, the Danes signed a treaty with the Duchy of Brandenburg that allowed the Brandenburg American Company to establish a slave trading post on the island.

At about the same time, two early governors gave their tacit approval to the use of St. Thomas as a pirate refuge, knowing that the local merchants would benefit from the open sale of pirate booty.

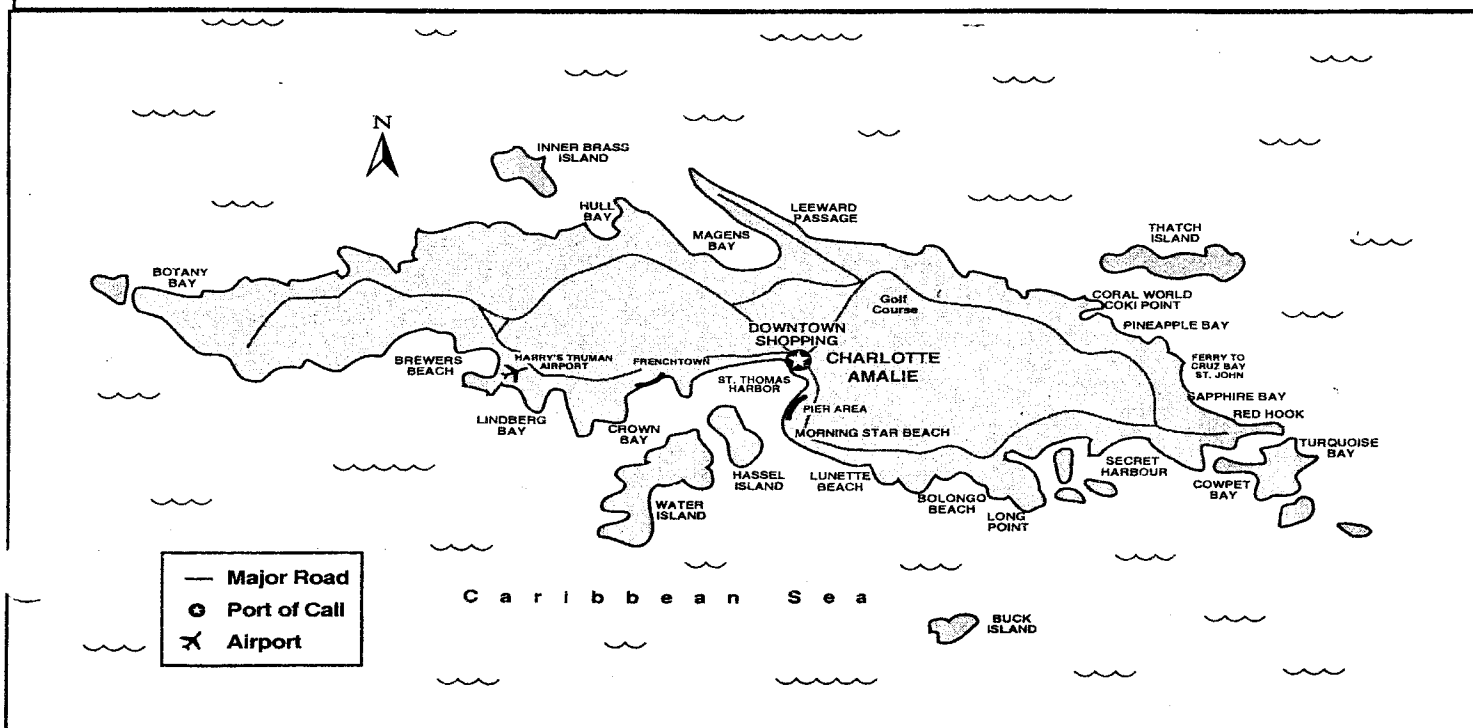

From 1700 to 1750, piracy was on the wane. Legitimate trade was on the upswing and prosperous merchants replaced buccaneers on Main Street. Then in 1764, King Frederick V declared St. Thomas a free port, which made this area the trading center of the West Indies by 1800.

When the governor-general granted freedom to the island's slaves in 1843, the economy suffered an immediate decline. Around the same time, as mankind took a giant step forward with the switch from sail power to steam, the Virgin Islands, once so necessary as stopover points for sailing vessels, became a backwater.

During World War I, the Americans became fearful that Denmark would fall to the Germans, making the Virgin Islands a German base in the Caribbean. In 1917, the U.S. bought the islands for a total of \$25 million in gold.

Prosperity returned after World War II, primarily because of the islands' free-port status and the increased availability of air and sea travel. In the late 1950's, St. Thomas moved into a new position of eminence as a tourist mecca.
